LinkedIn: [Ashraf shawer](#)

Education:

Faculty of Computers and Artificial Intelligence – University of Sadat City.

Bachelor of Computer Science.

Duration: 2021 – 2025

GPA/Grade: 3.17

Graduation Project: College Dashboard & HR Platform.

Projects:

- Graduation Project: College Dashboard & HR Platform:

A professional dashboard designed for managing college activities and an HR platform tailored for computer science students. The system offers an organized interface for displaying student data, managing schedules, and administrative tools. Built entirely using static frontend technologies.

Role: Frontend Developer – UI design, component structure, layout implementation

GitHub: [University Project](#)

- Personal Portfolio Website:

A responsive and professional personal portfolio website designed to showcase projects, technical skills, and contact information. Built with modern frontend technologies, highlighting a clean layout, smooth navigation, and user-focused design.

Technologies: HTML, CSS, JavaScript, Bootstrap

GitHub: [My Portfolio](#) | | Live Demo: [My Portfolio](#)

- Online Booking Platform:

The platform provides a seamless and responsive user experience for booking venues or events. It features dynamic routing, reusable UI components, and optimized performance.

Designed with scalability and clean architecture in mind, making it both elegant and efficient.

Technologies: HTML, CSS, JavaScript, React, Typescript, Next.js

GitHub: [Bookly app](#) | | Live Demo: [Bookly app](#)

- To Do List Web App:

Built a responsive To Do List app using HTML, CSS, and JavaScript with task add, complete, and delete features.

Implemented **local storage** for data persistence.

Technologies: HTML, CSS, Bootstrap, JavaScript

GitHub: [to-do-list](#) | | Live Demo: [to-do-list](#)

- E-commerce shop:

A modern, full-stack online shopping platform built with Next.js 15, React, and TypeScript. Features a complete shopping experience from product browsing to checkout. Implemented **local storage** for data persistence.

Technologies: HTML, CSS, javascript,Typescript,React,Next.js

GitHub: [Luxe](#) | | Live Demo: [Luxe](#)
